Initials _____

My child/teen has my permission to participate in all session and field trip activities. In case of emergency, I hereby request and authorize any physician, hospital and healthcare provider to provide medical treatment promptly for my child whether or not I am contacted and informed.

Initials _____

For a child/teen requiring medication: Designated PCNA staff will dispense medication under physician's orders. Under statute ORS 30.800 and 30.807 (Good Sam Act), all medications must be in a prescription container clearly labeled with child's name, type of medication, dosage, and times to administer medication to my above named child in the manner described by the physician's orders.

Initials _____

For a child/teen requiring injections: Generally PNCA staff and instructors are not trained to administer injections or other medical procedures. PNCA policy allows individual staff and instructors to voluntarily act under the statutes ORS 30.800 and 30.807 and administer requested injections or other medical procedures, should they individually choose to do so on a case- by-case basis. Instructions as to requested injections or medical procedures must be provided by the physician. I request PNCA to inquire whether there are staff or instructors who are willing to consider acting under statute ORS 30.800 or 30.807 on a case-by-case basis should my above name child need an emergency injection or other medical procedure in the manner described in the physician's orders. PNCA cannot guarantee that it will find willing staff or instructors to act under the statutes ORS 30.800 or 30.807 or that such staff or instructors will so act in every case.
